## Tooth Booth Appoints Board Members

Tooth Booth's Managing Director, Darren Berry, is pleased to announce that the Company has appointed Debra Burden and Laurent Bordes to its Board of Directors.

Both Mr Bordes and Mrs Burden have previously held executive management positions with ASX listed dental services company 1300SMILES.

Mrs Burden is firmly of the opinion the Tooth Booth model is superior to dental consolidation models as it avoids the difficulty of merging different cultures and managing dentist and staff expectations.

Mrs Burden states "The Tooth Booth greenfield model avoids the potential of having to write off goodwill if a purchased practice does not perform. In addition the "cookie cutter" clinic set-up of the same equipment in all lounges results in potential bulk buying cost savings together with providing operational efficiencies and better value for capital investments".

The Tooth Booth is an unlisted public Australian dental group with a greenfield expansion strategy and clinics conveniently located in high traffic, tier-one shopping centers in medium to high socio-economic areas.
